

GRE SOLUTIONS FOR BWTS

PIPESPAIN S.L., 40-year experienced company, is continuously involved worldwide in marine new builds, retrofits and repairs, mainly related to SW Cooling systems, Scrubber systems, Ballast Water systems, Inert Gas systems and recently in BWTS for any processes (UV+filtration, Chlorination+filtration.....), mostly under **turn-key agreements which will complete your own turn-key.**

GENERAL SCOPES

- ✓ Detail Engineering and stress calculations
- ✓ NOV FGS Bondstrand GRE pipe systems raw material supply – PIPESPAIN is NOV FGS Official Distributor.
- ✓ Repair services over any other GRP/GRE pipe system in the market
- ✓ Steel supports design, manufacturing and installation
- ✓ Shop prefabrication
- ✓ Field installation of all disciplines related to the pipe lines and services
- ✓ Testing and commissioning
- ✓ Field services/riding crews with worldwide range
- ✓ Your customer needs onsite support for Yard/local contractor installation teams? - PIPESPAIN will train/certify the fitters and supervise their work to the required extends.
- ✓ Your customer demands turn-key solution from you? - We will accompany your technicians and will assist them to complete your scopes.
- ✓ Non-standard GRE solutions such as our SEAPROOF GRE Sea chest filters, etc....

By implementing GRE in your BWTS system, you will:

- **Improve** quality and performance standards.
- **Minimize** maintenance requirements and costs in your systems.
- **Provide corrosion-free** solution for your seawater circulation lines, **chemical resistance** for additives lines, and will **avoid cathodic action** to metallic circulation lines or equipment, all these for your own equipment as well as for associated lines

This is achieved by implementing the **BONDSTRAND G.R.E. (NOV FGS) pipe systems** - Class Approved by all Class Societies - into your BWTS not only by supplying them but by dealing with your problematic becoming your technological partner

Furthermore, **PIPESPAIN S.L.** will support you no matter where, both directly as well as through the **NOV FGS Global Service Network**, as NOV FGS appointed partner in the GSN covering all Mediterranean sailing vessels & offshore units and ports.
